

Text for Pictures on Website:

A collection of framed prints created over the years, inspired by film posters, music posters, book covers and more.

Where possible, the designs use typefaces and imagery that complement the original subject. The collection includes a mixture of original and newly created designs.

Some are based on real concerts but feature completely new artwork rather than reproductions of the original posters - including designs for Jimi Hendrix, Bob Marley and The Clash.

Others include reimagined book covers, such as 1984, as well as familiar posters given a new twist with alternative captions and artwork.

All prints are produced to the same high standard using high-quality, colourfast printing. Prices vary mainly according to the quality and style of the frame.

Payment can be made by bank transfer, or by cash on collection or delivery.

All framed prints can be collected or delivered within the Coventry and Warwickshire area. A small additional charge applies for delivery.

Commissions

Occasionally, yes. Email with the film or record and roughly what you have in mind.

Expect a few weeks rather than a few days.

Frame or Print needed
